PHOTO SHOOT

Organised by KnutsfordAdmin.co.uk

What does your image say about you?

Paul from Paul Worpole Photography says "Outstanding contemporary portrait photography strengthens business relations, and it can even help to make a sale. We're all inquisitive – and we love to see what others look like. That's why it's never been more important to face the world with a professional portrait. Understanding that it's quality lighting that makes the difference between professional portraits and amateur snapshots."

Knutsford Admin have arranged with **Paul Worpole Photography** a one off portrait day, where for just £55.00 (normally £180.00) you can attend a professional photo shoot in a studio.

How will the session work?

You will be welcomed at Fit4Life Studio where Paul will take a number of photographs in a relaxed setting. At the end of the session you will have a chance to look through all of the shots and select 3. These 3 images will then be professionally edited and emailed direct to you.

How will you use your professional portrait?

PR and marketing use: Twitter, Facebook, LinkedIn, dating Sites, websites or anywhere where you'll need to make a good first impression.
